

ANDRIATINASOA JEAN NICO

DEVELOPPEUR WEB FULLSTACK

Fullstack JavaScript Developer specialized in React and Node.js, with proven experience in building modern web applications and secure RESTful APIs. Experienced with PostgreSQL and serverless architectures. Passionate about modern architectures (JAMstack, microservices) and development best practices. With project management and team collaboration experience, I am committed to delivering performant and scalable solutions with high code quality standards.

TECHNICAL SKILLS

Languages: JavaScript (ES7+), TypeScript, Python, PHP

Frontend: React.js, Next.js, React Native, Tailwind CSS, Material UI

Backend: Node.js, NestJS, Django, RESTful APIs

Databases: PostgreSQL, MySQL, SQLite

API Development: RESTful API (experienced), GraphQL (learning)

DevOps & Tools: Git, GitHub, GitHub Actions, Postman, VS Code

Architecture: JAMstack, Microservices, Serverless, Edge Functions

Deployment: Vercel, Netlify

SOFT SKILLS

- Adaptability and flexibility
- Autonomy and sense of responsibility
- Team spirit and collaboration
- Rigor in development and best practices
- Code quality focus
- Continuous learning mindset

LANGUAGES

- French: Fluent (Native)
- English: B2 (Upper Intermediate)
- Malagasy: Native

PROFESSIONAL EXPERIENCE

FULLSTACK DEVELOPER INTERN

JUNE 2025 - NOV 2025

Ran Consulting & Agency - Fianarantsoa

- Designed and developed a RESTful website for collecting donations for the Malagasy ecosystem using Next.js App Router
- Configured technical setup for fullstack monolithic architecture implementation
- Built PostgreSQL database schemas for donation management and data integrity
- Developed ergonomic and responsive user interfaces with modern JavaScript (ES7+)
- Implemented code quality best practices and collaborative Git workflows

FULLSTACK WEB DEVELOPER INTERN

NOV 2023 - MAR 2024

WaterAid Madagascar - Antananarivo

- Designed and developed a fullstack task management web application using React.js and Django
- Created secure REST APIs with authentication for frontend-backend communication
- Designed and optimized PostgreSQL database schemas for efficient data management
- Implemented unit and integration tests to ensure code quality
- Provided user support during testing phases and gathered feedback for improvements
- Collaborated in agile team environment with code reviews

FRONTEND DEVELOPER INTERN

AUG 2023 - SEP 2023

Ministry of Water, Sanitation and Hygiene (MEAH) - Antananarivo

- Redesigned the SE&AM website to improve overall view and user experience
- Used React.js to develop a more intuitive and responsive interface
- Participated in user testing sessions and fixed front-end bugs
- Collaborated with cross-functional teams for quality assurance

CONTINUOUS LEARNING & PROJECTS

- Active learning of TypeScript and GraphQL for modern application development
- Experimenting with Deno and Edge Functions for serverless architectures
- Studying CI/CD pipelines with GitHub Actions
- Exploring automated testing frameworks for improved code quality

EDUCATION

- Master's Degree in Computer Science (2025)
National School of Informatics (ENI) - Fianarantsoa
- Bachelor's Degree in Computer Science(2023)
National School of Informatics (ENI) - Fianarantsoa
- High School Diploma - Science Track (Baccalauréat Série C) (2019)
Saint François Xavier High School - Fianarantsoa
